

RELEASE NOTES

October 2014 - Maintenance Update

Overview

On the 19th October 2014 from 05.30-06.00 GTM (1:30 - 2AM EDT), Clicktools users may experience brief service interruptions as we make key updates to the Clicktools application and infrastructure.

Maintenance update

The following fixes are being applied:

Bug	Comment
3922 3897 3898	<p>Fixes for mobile multi-radio shown as multi-dropdown.</p> <p>With this update, mobile multi-radio shown as multi-dropdown questions will now acknowledge the required setting.</p> <p>Mobile multi-radio buttons shown as multi-dropdowns will not populate with an invalid value of 0.</p> <p>Exports that contain responses for the mobile multi-radio shown as multi-dropdown will not contain an invalid value of 0.</p>
3862	This release updated the Adobe Flash application used to upload files for document questions where dynamic upload is enabled.
3849	Results are now shown when a response filter is added to the CRM Synchronize results screen when “ready for sync” is selected.
3704	Corrected the Salesforce report deployment missing contacts where the “export reports without footer” option in Salesforce has been selected. All rows of the report are now processed.
