

# RELEASE NOTES

February 2015 - Maintenance Update

## Overview

On the 8th February 2015 from 06.30 - 7.00 GMT (1:30 - 2AM EDT), Clicktools/ SURVE users may experience brief service interruptions as we make key updates to the Clicktools/ SURVE application and infrastructure.

## Maintenance update

The following fixes are being applied:

Bug	Comment
#4367	<p style="text-align: center;"><b>Corrected in both SURVE and Clicktools interface</b></p> <p>Conditions in Mapper as well as the Report filter now function correctly regardless if 'And' or 'Or' is selected in the filter.</p>
	<p style="text-align: center;"><b>Corrected in the SURVE interface</b></p>
#4346	Users can now delete a scheduled reminder where an email template linked to the reminder has been previously deleted.
#4369	Offline surveys are now formatted correctly when opened offline.
#4405	Scheduled deployments now reference only SURVE URL.
#4456	Cumulative trend is now working for multi questions when results are split over multiple days.
	In addition to the aforementioned items, several SURVE interface improvements and minor bug fixes were incorporated into this maintenance release.
