

FAST TRACK TO SUCCESS

CONGRATULATIONS! With Clicktools, you now have the premium survey software for business at your fingertips. Let's start collecting, centralizing, and acting on customer feedback to improve customer experience at your company as soon as possible.

Fast Track to Success is a structured program built on more than ten years of helping companies implement feedback programs that deliver results. We understand that most companies don't have the time, resources, or expertise to plan and launch a successful feedback program. Fast Track to Success is designed to guide and support you until you see real benefits and can take over the program on your own.

- Get your solution up and running quickly
- Avoid the roadblocks that many projects encounter
- Leverage the expertise of the Clicktools team

What's Involved?

Working with you at any stage of your journey with Clicktools, Fast Track to Success follows three simple steps:

Kick-off:

Understand your requirements, advise on best practices, and agree to a timetable.

Build

Our expert consultant will help you build your initial solution.

Handover

Engage in a final walk-through of your solution and receive any available documentation from your consultant.

The Fine Print

You are eligible for Fast Track to Success if you meet the following criteria:

- You're ready to build a new or existing survey in Clicktools.
- You can provide us access to your Clicktools account or free trial.
- You can provide us access to your sandbox CRM environment (where applicable).
- One or more people on your team is available for the Kick-off call and Handover call.

The Program is NOT:

- An open-ended commitment to build a complex solution
- A substitute for proper training in Clicktools
- A CRM implementation
