

**Overview**

On the 19th June 2016 from 5.00 - 6.00 BST (12:00 - 1:00 AM EDT), Clicktools users may experience brief service interruptions as we make key updates to the Clicktools application.

**Maintenance update**

The following update is being applied:

Issue	Comment
SUR-669	Response will now re-sync to Salesforce when a generic Salesforce server error is received.
SUR-670	PDF report no longer cuts off the 5th option in the key.
SUR-747	New feature to bypass the issue created by Salesforce bug <a href="https://success.salesforce.com/issues__view?id=a1p3A00000182PyQAI">https://success.salesforce.com/issues__view?id=a1p3A00000182PyQAI</a> When deploying a survey from a Salesforce report that utilizes a formula field as the email address, the deployment will no longer return an error message that the Salesforce report has no contacts.
SUR-759	Improved performance of scheduled exports.
SUR-760	Export with Translations functions properly and does not place the translated text in the incorrect row.
